***Election/Restrictions***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03/19/04 has been entered.

This application contains claims directed to the following patentably distinct species of the claimed invention:

A: claim 1 drawn to a LCD wherein the smectic LC has spontaneous polarization in a range of  $2 \text{ nC/cm}^2$  to  $10 \text{ nC/cm}^2$  and a unit storage capacitance is in a range of  $1 \text{ nF/cm}^2$  to  $4.5 \text{ nF/cm}^2$ .

B: claim 4 drawn to a LCD wherein the smectic LC has spontaneous polarization in a range of  $70 \text{ nC/cm}^2$  to  $100 \text{ nC/cm}^2$  and a unit storage capacitance is in a range of  $5 \text{ nF/cm}^2$  to  $13 \text{ nF/cm}^2$ .

C: claim 5 drawn to a LCD wherein the smectic LC has spontaneous polarization in a range of  $10 \text{ nC/cm}^2$  to  $70 \text{ nC/cm}^2$  and a unit storage capacitance is in a range of  $4 \text{ nF/cm}^2$  to  $7 \text{ nF/cm}^2$ .

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication should be directed to Tai Duong at telephone number (571) 272-2291.
